

Kajamugi Gnanaeswaran

33 Stella Dr Markham, ON L3S 4G9

Masters of Health Informatics Candidate

Bachelors of Health Science (Honours)

Cell: 647-981-5865 | Email: kajamugi.08@gmail.com

HIGHLIGHTS OF QUALIFICATION:

- Data-driven Health Analyst and Digital Strategist with experience optimizing clinical operations at Region of Peel and digital patient engagement at Shoppers Drug Mart
- Proven track record in stakeholder management and project coordination, successfully executing high-impact health education initiatives for 300+ professionals.
- Advanced analytical and problem-solving skills with experience forecasting, data analysis, and cross-functional collaboration in fast-paced environments
- Proficient in organizing and analyzing data using Excel, Google Sheets, and presenting insights with PowerPoint and Google Slides.
- Experience supporting cross-functional, internally- and externally-facing projects in public and private health settings
- Excellent time management, problem-solving, and multi-tasking abilities developed across marketing, health analytics, and project coordination roles.
- Experienced in coordinating high-volume clinic workflows.

EXPERIENCE:

Dynamic Balance Chiropractic - Chiropractic Assistant

Jan 2026 - Aug 2026

- Coordinated high-volume front-desk and clinic operations, scheduling 50–100 patients daily across two chiropractors while managing cancellations, follow-ups, and appointment changes.
- Delivered patient-centred reception and intake support by welcoming patients, confirming appointments, collecting and updating patient information, and responding to questions with professionalism and empathy.
- Used AtlasHub EHR and scheduling software to maintain accurate patient records, manage bookings, document encounters, and support communication between patients and providers.
- Gathered and documented patient-subjective information before appointments and entered objective observations into SOAP notes according to clinic procedures and provider direction.
- Supported efficient clinic flow by preparing treatment rooms, coordinating patient transitions, communicating schedule changes or delays, and collaborating closely with chiropractors and administrative staff.
- Processed payments and supported payment-plan administration based on patient needs and clinic policies, while maintaining confidentiality and resolving basic EMR or scheduling-system issues.

Karrot - Growth Marketing

May 2024 - Aug 2024 & Jan 2025 - Aug 2025

- Leveraged Generative AI tools and A/B testing frameworks to optimize digital asset performance, achieving a 35% increase in engagement metrics through data-informed content strategy
- Authored SEO-driven blog content using RankMath, WordPress, and MegaSEO while leading the development of a Pinterest-based SEO strategy, laying the foundation for long-term growth with ongoing performance metric reporting
- Spearheaded high-impact social media campaigns that increased Instagram following by 42% in three months, leveraging multimedia, platform-specific tactics, and creator collaborations to amplify brand presence.
- Collaborated with social media creators to produce ad content, leveraging analytics tools to optimize campaign performance and improve key metrics such as CTR, CPI, and CPM

- Managed multiple concurrent campaigns end-to-end (planning, execution, monitoring, optimization), balancing priorities and adapting tactics based on real-time performance data

Region of Peel (Immunizations Services Division) - Health Analyst **Sept 2023 - Dec 2023**

- Synthesized dense scientific literature and immunization data to provide evidence-based recommendations for the 2024 ISD operational strategy, directly influencing resource allocation for future clinics
- Conducted quantitative analysis of clinic throughput data to identify operational bottlenecks and inform prioritization of initiatives aligned with the division's transition plan
- Developed and delivered concise presentations, status reports, and action logs to leaders across ISD, ensuring consistent communication and project controls.
- Led cross-functional process mapping sessions with 20+ stakeholders to streamline vaccine delivery workflows and ensure compliance with provincial health standards
- Utilized quality monitoring data management system to compile and track information
- Coordinated data entry, updating, auditing and reporting of confidential information

Shoppers Drug Mart - Projects & Planning Coordinator, Digital Health **Jan 2023 - April 2023**

- Leveraged user analytics to identify engagement gaps in the PC Health app, translating raw data into strategic recommendations that enhanced user retention and digital experience
- Transformed complex datasets daily, weekly, and monthly from cross-functional teams into high-impact slide decks and Excel dashboards to drive evidence-based decision-making at the executive level
- Collaborated with product and marketing teams to develop business cases and strategic roadmaps for PC Health initiatives, aligning KPIs with overall digital health strategy
- Increased sector-wide collaboration by creating a monthly newsletter using graphic design software that reached over 300 readers across the Health and Wellness sector
- Authored comprehensive vendor performance reports, facilitating data-driven dialogue with external health partners to foster long-term strategic alliances
